DETAILED ACTION

Election/Restrictions

This application is a continuation of US application 09/695,423 of ABN on 10/25/2000.

The preliminary amendment filed on 3/29/2004 amending claims 27-33, 123-124, and 126-128, and canceling claims 1-24, and 38-122 is acknowledged.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 25-32, 33-34 and 35, drawn to a novel amylase enzyme belonging to species *Sulfolobus solfataricus* strain ICM1 or a variant thereof, classified in class 435, subclass 202.
- II. Claims 25-32, 33-34 and 36, drawn to a novel amylase enzyme belonging to species *Sulfolobus solfataricus* strain DSt4 5833 or a variant thereof, classified in class 435, subclass 202.
- III. Claims 25-32, 33-34 and 123, 125-128, drawn to a novel amylase enzyme belonging to species *Sulfolobus solfataricus* strain KM1 comprising SEQ ID NO: 6, classified in class 435, subclass 202.
- IV. Claims 25-32, 33-34 and 37 and 124, drawn to a novel amylase enzyme belonging to species *Sulfolobus acidocaldarius* strain ATCC 33909 comprising SEQ ID NO: 8, classified in class 435, subclass 202.

2. The proteins of Group I-IV are each comprise a chemically unrelated structure, unrelated amino acid sequences with unrelated functions capable of separate manufacture, use and effect.

The proteins can be made by another method such as isolation from natural sources or chemical synthesis and the proteins have other utility such as acting as an antigen to induce the antibodies.

Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37CFR 1.48b if one or more of the currently named inventors are no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (i).

The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and a product claim is subsequently found allowable, withdrawn process claims that depend from or otherwise include all the limitations of the allowable product claim will be rejoined in accordance with the provisions of MPEP § 821.04. **Process claims that depend from or otherwise include all the limitations of the patentable product** will be entered as a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier. Amendments submitted after final rejection are governed by 37 CFR 1.116; amendments submitted after allowance are governed by 37 CFR 1.312.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102,

103, and 112. Until an elected product claim is found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowed product claim will not be rejoined. See “Guidance on Treatment of Product and Process Claims in light of In re Ochiai, In re Brouwer and 35 U.S.C. § 103(b),” 1184 O.G. 86 (March 26, 1996). Additionally, in order to retain the right to rejoinder in accordance with the above policy, Applicant is advised that the process claims should be amended during prosecution either to maintain claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.

Applicant is advised the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
